## About

---

The first library at the school of medicine was founded in the old school site, in 1949. By the end of 1980, the library was moved to the new building and called "Shahid Dr. Hossein Garakaninezhad."

Garakaninezhad Library is one of the largest medical libraries of Iran. It holds more than 10000 volumes of books in English and about 2900 volumes of books in Persian. These books support all aspects of medicine and healthcare. Over the past 10 years, the library has focused on its digital collections. Therefore, all the paper journals were replaced by their electronic versions.
